Set up a new phone safely

Four checks for your first day.

Start in Settings

- Use the phone’s built-in settings to get started.
- Make these checks even if you copied your old phone.
- Help a family member tick these off, too.

- [ ] **Turn on automatic updates.**
  Enable updates for your phone and its apps.

- [ ] **Set a strong screen lock.**
  Choose a PIN or passcode that’s hard to guess.

- [ ] **Switch on automatic backups.**
  Check that your photos and important data are included.

- [ ] **Turn on two-step verification.**
  Start with your email and Apple or Google account.
